

This book contains detailed instructions on building the HH-60G Pave Hawk 1/35 scale model aircraft from Kitty Hawk (Kit KH 50006).

This book provides a little history of the Pave Hawk, a detailed list of tools that I used to build this model, along with a list of paints. The actual instruction section contains 714 steps and 130 plus figures over 176 pages that tell you what to dry fit, glue, and/or paint for each individual piece. Each step instruction has a block to mark that you completed the step. The many issues with the Kitty Hawk's instruction reported by other modelers have been addressed.

There are several pages of in-process photos with assembly tips and the final photos of my build for reference. This book is a great checklist to make your build go smoothly. Of course, you can feel free to use different tools, paint, weathering, etc. or even add your own diorama. I hope you find this book useful. See a multi-page sample along with photos of finished models and other books at glennhoovermodels.com.

HH-60G Pave Hawk Model: How to build the HH-60G Pave Hawk Model from Kitty Hawk (A

Glenn Hoover Model Build Instruction Series)
