

This book contains detailed instructions on building the PBR 31Mk. II Patrol Boat River "PIBBER" 1/35 scale model from Tamiya (Kit 35150).

In addition to the kit's instructions, the book also includes Eduard's photo etch set 53010. Can you imagine merging all of these instructions? Well, I've done that for you and more. I take the model kit instructions from Tamiya along with the Eduard set and break them up into individual steps.

The aftermarket steps are colored gray making them easy to skip if you just have the basic model. This book also provides a detailed list of tools that I used to build this model, along with a list of paints. The actual instruction section contains 455 steps and 74 plus figures over 94 pages that tell you what to dry fit, glue, and/or paint for each individual piece. Each step instruction shows the source (i.e., either Tamiya or Eduard) along with a block to mark that you completed the step.

There are several pages of in-process photos with assembly tips and the final photos of my build for reference. This book is a great checklist to make your build go smoothly. Of course, you can feel free to use different tools, paint, weathering, etc. or even add your own diorama. I hope you find this book useful. See a multi-page sample along with photos of finished models and other books at glennhoovermodels.com.

PBR 31 Patrol Boat River "PIBBER" Model: How to build the PBR 31 Patrol Boat River "PIBBER"

Model from Tamiya (A Glenn Hoover Model Build Instruction Series)
